THE BERTRAND RUSSELL DISTINGUISHED SCHOLARS LECTURE AND CONVERSATION

This important dimension of the conference highlights the work and thinking of distinguished scholars throughout history who have contributed significantly to the conception and advancement of fairminded critical societies. Russell scholars may come from any subject, field, discipline, or domain of human thought. At the 34th conference, we honor the thinking and contributions of public citizen and activist Ralph Nader. All conference participants are invited to the Bertrand Russell Scholars program (see conference program at criticalthinking.org).

Ralph Nader, Public Citizen

Honored by *Time* magazine as "One of the 100 Most Influential Americans of the 20th Century", consumer advocate Ralph Nader has devoted his life to giving ordinary people the tools they need to defend themselves against corporate negligence and government indifference. With tireless, selfless dedication, he continues to expose and remedy the dangers that threaten a free and emancipated society.

In 1965, Nader took on the Goliath of the auto industry with his book *Unsafe at Any Speed*. He was instrumental in creating the Occupational Safety and Health Administration (OSHA), the Environmental Protection Agency (EPA), and the Consumer Product Safety Commission. Nader continually works to empower the average American: "...to be a citizen is to enjoy the deep satisfaction of seeing the prevention of pain, misery, and injustice."
